Missouri National 4-H Shooting Team

COMPOUND TEAM

2010 MUZZLE LOADING TEAM

RECURVE TEAM

Special note from Coach Jim Sappington and his wife, Ragan...the photos show 2010 **4H MO State Shooting Sports teams**. MBH's 2010 sponsorship was used to support the teams for practice, t-shirts, and food expenses. We truly appreciate the awesome support we receive from MBH. Not only for the 4H State teams, but at every shoot that our young men and women participate in. This helps these kids achieve success in their shooting sports. Their experiences will be memories kept for a lifetime.

**Compound Team:** Coach Jim Sappington, Kelsey Brandkamp, Chase Wilson, Ryan Jacks, Danton Creek

**Recurve Team:** Coach Mendy Blades, Shane Davis, Zachary Garrett, Ethan Burchell, Levi Bachmann

**Muzzle Loading Team:** Coach Walter Branson, Logan Sappington, Chip Branson, Robert Jones, Tanner Johnson

**SUMMIT ARCHERY CENTER (Exp.2.28.10)** 1168 Decker Rd, Gray Summit, MO 63069. Owner: Jeff Friedmann (636) 742-2531)

### *A message from your President . . .*

Here we are in the middle of August, and for most, summer is over. The kids have started school or soon will and summer archery season is winding down. It has been quite a summer for Missouri archers. Lots of tournament shooting, in state as well as a lot of out of state shoots. MBH had quite a few champions on the ASA circuit this year. Congratulations to all those who won their divisions. The Missouri state 3D was hosted by Millersburg archery club July 11&12. There was an increase in participation this year. There were 119 shooters overall. This number is up from the past couple of years. Millersburg did a great job hosting the shoot. I don't think we can blame them for the storms that blew through on Sunday. With great positive feedback after the shoot.

MBH was present at both of the Missouri Show-me Games in July. In more ways than one. It almost looked like a MBH event, there were so many of us. Kathy Potter set up a table advertising MBH at both shoots. She had water, candy, bug spray, but more importantly, she had information about MBH and signed up several new members in the process. Now that's thinking outside the box! Our membership is starting to climb again. We need to start doing this at more shoots. There are still a lot of people that need to be introduced to MBH.

The MBH Bow fishing team hosted a couple of great shoots this summer. One of those being the youth shoot. There are lots of give-a-ways and everything is donated. Thanks to Dave Williams, Bob Redmon, and the rest of their volunteers. There were 41 kids that got to shoot fish on Truman Lake this year. Look for a story and pictures in the next issue of the Release.

Watch the September Release for an update and results from the State outdoor championships

We are in the process of finalizing the details for the MBH/NFAA state shoot in December. As soon as the details are in place they will be posted. Speaking of State. The dates for the 2011 indoor will be March 12&13 at Linn, Mo. MBH is working on something really special for this tournament. Stay tuned for details.

I know quite a few MBH members are planning out of state hunting trips this season. Send us some of your pictures and a story about your trip and we'll get it in the Release. Missouri deer season opens in a month. Good luck to everyone how dares to brave the heat and the bugs those first few weeks. Be safe!

# MBH 3D State Championship

The MBH 3D State Championship was held the weekend of July 10<sup>th</sup> in central Missouri and was hosted by the Millersburg Archery Club. Many thanks to club members for putting on a great shoot. The club did an awesome job with the course and the rain even held off until the last shooter made it back on Sunday! This was one of the largest MBH 3D State tournaments in many years with nearly 120 shooters participating.

High point male went to Paul Wilson and the High point female went to Julie Griggs. Congratulations to all the winners and many MANY thanks to every one that came out to participate and support the shoot! MBH is very grateful to Michael Gamet for providing the pictures. More pictures will be loaded on the website later this month.

Paul Wilson, High Point Award Winner

## IT'S ONLY OPENING DAY

by Cole Duensing

Crunch! Crunch! Crunch! You look around to find where the sound is coming from. There he is! That stud 10-pointer you saw last season chasin' some does in the creek bottoms. You are doin' good so far. No jitters, at least at 100 yards. He's comin' down the path you thought he would. You look at the mass and length of his tines through your binos. Now he's at 75 yards. Oh man, you thought he was 130-class buck, but now he just might break 145. He stops at the creek to get a drink. As the gigantic buck drops his head to smell the scent trail a doe left 30 minutes ago, you grab your new hunting rig you got this last summer. The same bow that you spent countless hours tuning, sighting in, and getting to know in the smoken' hot Missouri summer doldrums. The buck is now at 50 yards. Too far, and too much brush. "Be patient, breathe, don't draw until the right moment," you tell yourself. You attach your release to the D-loop. Then you count the points one last time to make sure that he has 4 points on one side. Better to be safe than sorry. As he approaches 40 yards, he stops behind the last tree before your shooting lane at 26 yards. You slowly draw your bow, making sure not to make any unnecessary noise or movement. You think to yourself, "Come on, Big Dude, just a few more steps." Almost as if the buck follows your command, he walks straight to your lane. "Perfectly broadside, keep it low and tight to the shoulder blade." At full draw, you're in the zone. But just as you start to squeeze the trigger a doe behind you winds you and blows. As she jumps the creek, you look out the corner of your eye to see the white tails, stomachs and throats of at least 6 or 7 does. You were so focused on the buck you didn't even notice the harem of does he was running with. To your surprise when you look back to the buck, he is still standing there, however, very nervous. This is the point in time when you lock up. You don't know what's going on. You throw the pin on the deer because you know he's going to bust you, but it's now a matter of when. A green smear appears in the buck's vitals, racing erratically, up and down, left and right. The next thing you remember is in slow motion. A nock and vanes escape from the bow, in a perfect arc toward the deer's heart. A sudden rush of excitement comes over you. "It's gonna get there!" You tell yourself. Then, as it seems that the arrow is 15 years from the monster buck, his belly nearly hits the ground and your arrow flies just over his back. Immediately, your stomach sinks. How did a situation go from so right, to a complete disaster? After 10 minutes of sitting in your stand in shock and trying to sort things out, you take a breath. Then, in disappointment you return to your truck. Your buddy calls you to see if you shot a big one. "No Rick, I missed Big Dude. He's a definite 10. He'll probably score 145 this year." "That's all right man," Rick said, "It's only opening day."

# Summertime Blues

In the summertime, "No Hunting", blues got you, try some bowfishing, it's

a great way to cure it. With all the flooding through out the state waters this year there are a lot of areas to go in. All you need is to rig up and start hitting the water.

My dad introduced me to bowfishing in 1970 when I was 8 years old. I enjoy going out over the years talking to other avid people on areas, techniques and equipment, I learned to hone this skill. One of the best is Dave Williams, he knows his bowfishing.

During May and on we just walk on old levees, creek banks, sloughs, etc, shooting fish, we don't get in boats often, but we fill the buckets up. This will add to the freezer when deer-meat runs low.

In late June, Jim Shatt and I both shot really nice grassy's the larger two, Jims at 41", weighed 36 pounds; mine at 40", weighed 38 pounds. Some nice fish anywhere. We are still shooting Buffalo's a couple times a week and with luck we might be bowfishing till September 14th. So try it, introduce some kids and hit the water.

Till next time "keepum' splashin".

Todd Baggs from Carroll County

## Venison -Bacon Appetizer *by jack davis*

1 bottle Italian salad dressing  
 1 pound of venison steaks , tenderized  
 10 ounces of bacon  
 jalapeno pepper or water chestnuts

Cut venison into thin strips 1 inch by 3 inch. Marinate in salad dressing for 6-8 hours in refrigerator. Remove strips and roll around a chestnut or pepper, then with a half strip of bacon wrap on the outside. Secure with a toothpick. Grill or broil 10-12 minutes or until done.

# NODAHO BOWHUNTERS, INC.

Jeanette Brookshier, Secretary

When I awoke on the day of our July 11 shoot, the first thing I heard was a loud clap of thunder and the sound of rain! I'm sure everyone who hosts a shoot can relate to the feeling of dread that comes with rain on tournament day. A quick check of the weather, though, showed that it would clear out later in the morning, and it did! Archers are a hearty bunch, and many who came reported driving through heavy rain to get to us. As it turned out, we had a good shoot after all. THANKS to all that came, here are the winners, full results are on our web site at [www.nodahobowhunters.com](http://www.nodahobowhunters.com)

Congratulations to Stan Harmon, Jr. for shooting a very impressive score of 436! He and Austin Vail were drawn for partners in the money class and shared the purse with a combined score of 813.

Our indoor range has received a face lift with new siding and windows on the south portion of the building that should help with our heating bill this winter. Gosh, by the time you read this we will be getting ready for our last 3-D shoot of the season on September 12, school will have started, and fall hunting season will be right around the corner – where has the summer gone???

Cubs I 1st	Dakota Gross	179
(A side only scored)		
2nd	Talon Riedel	77
3rd	Colton Hankins	68
Cubs II 1st	Dakota Leeper	357

1st	Stan Harmon, Jr.	436
2nd	Bob Thompson	410

**Thank you** goes out from **Cole Duensing**, a regular contributor to the MBH Release... "I just want to throw out kudos to everyone involved. The folks at Millerburg were very hospitable and had one of the best 3-D courses I have been to. Especially a shout out to Kathy Potter, who seems to work tirelessly to put on great events. The whole shoot seemed to be a success. All of the shooters were off the course by late Sunday when the weather changed. I would recommend bringing the State shoot back to Millersburg next year.

# LARGE & SMALL GAME COMMITTEE

This is probably one of my longest and for some new members my most important article. With the bowhunting season upon us, it is fitting to explain what this committee is all about. In brief, records are kept for all the game killed by our members while hunting with archery equipment, by the rules and regs set forth by the Mo. Department of Conservation ( MDC ) in the state of Missouri. When one submits a game form, one could be to be awarded for his/her effort. I'll explain in this article.

The Small Game Award is presented to a member, after one accumulates thirty points for certain species of small game killed in Missouri. A point evaluation system is set for different animals. For example, raccoon, 5 points, squirrel, 4 points, etc. There is no time limit as to when the thirty points are achieved. Some hunters have accumulated the points in one season, while others have taken as long as ten years. An entry fee of \$2.00 must accompany the first application, for registration. A point system for animals taken will then be sent to that member or can be taken off our web site under Large & Small Game.

When thirty points are accumulated, that member is awarded a MBH Small Game pin. The pin, arrow-head shaped is approximately one inch in height, gold in color, with the inscription, MBH Small Game. This pin can be worn on hats, lapels or archery quiver or where ever. After one achieves the first thirty points, one can start on the next thirty at which a number "2" is awarded. The 2 is on a small chain, designed to be attached to the original Small Game pin. Number "3" , is the next goal, through the number "10".

This award doesn't gets the recognition as in the past. Names and icons in our organization found in our archives are, Paul Jefferies, Earl and Ann Hoyt and Dick Wood, to name a few. There hasn't been a Small Game presentation in some three years. One of my theories with the longer bowhunting season, members are putting their efforts in taking deer and turkey rather than small game. Also, with the price of a carbon arrow and as much as \$13 broadhead, you think twice of wasting it.

The Large Game Award is set up on an annual basis. When a member takes his/her first deer or turkey in Missouri, by means of archery equipment, one receives the MBH Large Game pin. This pin is much in appearance as the Small Game except the inscription "MBH Large Game". To receive the game pin, a Large Game Report must be completed and sent to me. The report is on our web site at [www.mobowhunters.org](http://www.mobowhunters.org). or give me a call and I'll mail you one. I'd love to hear your success story. After one receives the Large Game Pin, the pin is designed to add an " adder bar". This can read doe, buck or turkey. There are also bars for out of state kills, such as elk, boar, antelope or bear etc. The game pin is free, the price of the adder bar is \$6.00 each.

When one receives the game form, there is a questionnaire to complete. At seasons end, the data is compiled to summarize the season.

The info seems to run parallel to the rest of the nation, i.e. the poundage of the bows is getting less. Last year the average weight was 60.1 lbs. among our members. It is no secret, the carbons have taken over the industry. Last season there were 40 reports of game killed with carbons compared to only 10 taken with aluminum. On the back side of the form, there are categories for awards, if one decides to participate.

- A list of the annual awards include:
- 1st Spring Turkey-be sure; check your watch. Deadline for your report is June 10th
  - 1st Fall Turkey- again check your watch. There have been years were minutes made the difference
  - 1st Deer-keep that watch handy.
  - Last Deer-didn't realize how many are taken the last day, we have some real die-hards.
  - Big Doe-by weight, need a verification from the meat locker and witnessed
  - Big Buck-same as above
  - Best Buck-an award for the largest typical and an award for largest non-typical, Pope & Young. Must be measured either by a P&Y, B& C or MABB certified scorer with a copy of such score sent to me. Green score is acceptable.
  - Top Ten Doe-by weight that qualifies for the largest ten does ever taken by our members.
  - Top Ten Pope & Young Typ & Non-typ-ten largest in each category taken by our members. One can submit for this award from years past, but proof of membership must be supplied at the time the animal was taken.
  - 1st Deer-Youth Div. The member must be 16 years of age or younger that takes the first deer of the season.
  - Lucky Deer-every member that submits a large game form with a weight on it, qualifies for this award. At the start of season, I write down a weight that is in line with what a deer might weigh. That member with the weight on or closest to that number, is awarded "Lucky Deer".

With our membership reaching an older age class and being physically challenged, I know more and more our resorting to the cross bow. Last year I opened a new award "1st Deer-Cross-bow Div." I know of at least five members using such a weapon, but only one member turned in a report for this award.

Another award not on the game form is the "Grand Slam Award". This started when the MDC changed the archery permit to two deer and two turkeys. If one filled his/her tag, they would receive that award. If a hunter would submit to this committee two fall turkey and two deer reports is all that is required. When this award was started, it was decided to open this to any bowhunter in Missouri, not just a MBH member. The idea was to generate some new members, for which it did the first couple of years. Dave Drum has a record of fourteen years straight of receiving this award.

Dave Williams, Bow Fish Chairman, and myself get together, and between what we receive from the fish and small game tournaments, we present awards for fish taken,

- Longest Gar 1st & 2nd Place
- Biggest Common Carp 1st & 2nd Place
- Biggest Asian Fish (big-head carp, grass carp, etc.) 1st & 2nd Place
- Biggest Fish ( Buffalo, etc.) 1st & 2nd Place

Any fish taken with archery equipment, can be applied for the Small Game Award.

The deadline for Large Game Award application is Feb. 10th. That gives me about two weeks to make notifications, to get the info to the trophy shop and order the knives. At the Columbia Deer Classic, awards are presented at the MBH booth. The recipients will receive a 5x7 plaque plus a hunting knife that they would be proud to own. The exception to receiving the knife is the Grand Slam Award, since it is open to any state bow hunter.

As in any publication, pictures are always welcome. Just make sure they are presentable for viewing for a non-hunter. Wipe the blood from the animal, cover the chest cavity with leaves if needed, have your weapon in the photo and SMILE. One doesn't have to be a journalist to write about their success. Any story telling of one's harvest, I'm sure would be enjoyed by other members.

*Todd Baggs (Grass Carp measured 38") and Jim Shatto of Carroll Co. have had some success as seen in this issue.*

# Bowhunt Anticipation

Wikipedia defines **Anticipation** as follows: Being enthusiastic, is an emotion involving pleasure (and sometimes anxiety) in considering some expected or longed-for good event, or irritation at having to wait.

Anticipation can be shown in many ways; i.e., some people smile during this period, while others might seem ill. It is not uncommon for the brain to be so focused in an event, that the body is affected in such a way.

This emotion to me is the best part of bow hunting. My anticipation starts for the upcoming bow season in about July. That's when I start putting out my game camera's on the food plots I have planted. Also about the time I start shooting my bow at least once a week in earnest.

Game camera pictures can really get you excited about what may happen this fall. Seeing pictures of the deer and turkeys is a great motivator to stay in the tree stand anticipating what may come by. During the hunting season my wife notices me smiling uncontrollably when we are getting ready for a weekend trip to our chosen hunting ground. That smile often continues throughout the hunt.

Wikipedia also says anticipation can be caused by an irritation to wait. Not for me I love setting in a tree stand and waiting. To me it's not waiting but observing the wild outdoors. Seeing the sunrise and sunset.

Watching all of nature's show whether it's an ant colony busily hustling back and forth in their daily routine or maybe a beautifully colored bird that perches in the tree right next to me. Anyone who bowhunts has seen things in the outdoors that they would have never seen otherwise.

by MBH Member Jeff Blystone

Bowhunters also experience another form of anticipation. It's called "Buck Fever" that's the part of anticipation that bow hunters must learn to control. Your heart is pounding and your whole body is shaking when the shot is about to present itself, you must focus your mind but not let your body freeze up.

Once you have accomplished your goal and the game is on the ground there are two more wonderful events you will enjoy, the stories you can tell of the hunt and the meat from the harvested game.

Anticipation is also a part of my winter off season. I can always anticipate the hunt for the one that got away and wonder how big he will be next year!

## St. Louis Bowhunters St. Louis, Mo.

by Bob Brumbeck

Well, I do not have much to report right now. Things have been a little slow for this month, but a lot of 3-D shoots will be coming up around everywhere.

Most of our leagues will start the first part of October. Well I guess everyone is getting ready for the early deer season again this year. It has finally started cooling down a little lately. I just hope it stays cooled for a while longer. This winter might be a different story this year. I guess we will just have to wait and see.

I am sorry to report that the results of the April 18<sup>th</sup> 3D shoot have not been posted yet, so I could not include them.

We hope to see you all at our 3-D shoot August 29<sup>th</sup>, which will be our last 3-D for this season. It is also in the calendar of events if you haven't noticed yet.

Not too much to write about right now so I guess just keep practicing because before you know it September 15<sup>th</sup> will soon be here. I will try to have the results of the August 29<sup>th</sup> 3-D shoot in the next writing.

Until the next time, take care and hang in there and I don't mean upside down from a tree stand. Be careful out there.

Always let someone know where you are going to hunt and what time you expect to return.

**CONGRATULATIONS** to our new national winner, **McKenzie Reese-Koester**, 13 year old granddaughter of MBH member Larry Skinner of Moberly, MO. She ended up taking the bronze medal for her division at the JOAD Nationals in Des Moines, IA in June, 2010. Watch for the September Release about McKenzie and information on the JOAD Program.

## Midwest Sectional Waverly, Iowa

By Bill Myers

I had decided to shoot the Midwest Sectionals this year back in January. I was looking forward to going to Iowa but as spring turned to summer I was getting a little concerned. I had

been keeping a close eye on the weather in Iowa. They had been having lots of thunderstorms and the possibility of shooting in the rain was looking good. But as it turned out the weather was great. The highs were in the mid 80's and it was cool in the evenings.

Saturday morning was cool and sunny. After a little warm-up and getting our target assignments we were off to the woods. I was shooting in the Senior division and the person setting up target assignments was also so, I didn't have to walk far (first Field target on red range).

Waverly Archery Club has a nice range. Easy to walk (soft sandy soil), with a couple of down hill shots but, nothing like we have in Missouri. The club members were very nice the event ran smoothly. I on the other hand was bitten by the archery gotcha bug. After the first three targets I realized I need to add three yards to every shot. Still have not figured out why. After all that at the end of the day, I ended up three points ahead of my nearest competitor. We woke to the sound of rain drops Sunday morning. By the time we arrived at the range the rain had stopped. It was cool and cloudy and once again I got to start on the first target (Hunter on Blue range). Still adding three yards for every shoot. I shot a pretty decent hunter round and then we were off to try our hand at the animal targets. The day turned out to be pretty nice. The sun came out just about the time we were finishing up. After a little lunch my wife and I headed back to Missouri with me 10 points ahead. After I got home I went on line to check out the scores and found I had won the Men's Senior Freestlye Division. If you ever get the chance to visit Waverly and shoot their range, I would highly recommend it.

Don Will, Bill Myers, Steve Christian

MBH Member Bill Myers (right) Shooting 80 Yd Walk-up

# My first mature gobbler.

by Cheryl Earhart

Tim Donnelly called this tom in for me on May 1, 2010. It was raining so hard that we couldn't see but we could hear him gobble at about 40 yards! I took a 23 yard shoe with my Hoyt 7/37 tipped with an NAP Spitfire. We estimated him at about 18 pounds. His spurs were about 3/4" and 7/8", he had 4

beards—10", 7", 6" and 5 1/2". He was my first mature gobbler.

**A** For those of you not familiar with ABI, we are located in K. C. Mo. We are the only archery club with a 20yd. indoor range, north of the Mo. river. Actually our range is in Claycomo, Mo. (suburb of KC) above the Show-me Shooters Indoor Pistol Range

**A** We will start leagues on August 25(Wed) and will run 10 weeks. On Nov.2 we will start a Vegas league on Tuesday evenings. All our leagues start at 7PM. Leagues will run till the holidays.

**C** Our tournament schedule is as follows:  
Dec 4&5 (NFAA &/or Vegas scoring)  
Jan 1 & 2, 2011  
Feb 5 & 6  
March 5 & 6

**H** For information on leagues &/ or tournaments contact;

**E** Lowell Swank 816-651-8221  
**R** Sandy Maucelli 816-392-4384

## Scent Killer Formula

### 2 qts Hydrogen Peroxide (3% Formula) H2O2.

You can buy this at your local grocery store. The H2O2 bought in the grocery stores has an additive to prolong shelf life. This additive has a slight odor which will rapidly dissipate.

You can also buy a **H2O2 concentrate (27%)** from swimming pool supply stores or from beauty shops. The concentrate is **HIGHLY CAUSTIC**. Wear rubber gloves and eye protection. Dilute the concentrate to 1 part H2O2 and 9 parts water. Pour the concentrate into the water. **Not** water into concentrate. I use the grocery store H2O2.

### 2 qts distilled water

### 1/2 cup of baking soda

### 1/8th oz of unscented soap

Mix in a large container. It takes a while for the baking soda to dissolve. Pour into an opaque (can't see thru) 1 gal container. Leave uncapped for several days to let the gases produced to vent off. Store the "big batch" in a dark place as hydrogen peroxide (H2O2) changes to water when exposed to sunlight.

Fill smaller opaque bottles to use in the field.

Oh yes, you can expect a white residue after using this recipe. It's merely baking soda. I have successfully used this recipe for 15 years...maybe a tad longer.

There are all kinds of commercial formulas now that include all kinds of additives. Silver, carbon, whatever. They'll run about \$40 per gallon or more. This'll run about \$2 a gallon and you won't hesitate to apply it generously.

I don't care what they say. Keep the wind in your face. Use this formula at your own risk.

**Good luck this year fellow bowhunters.**
